Summary

Front-end developer with 1.5+ years of experience in making thoughtful, engaging, and functional web applications with simple, clean, and distinct design using Angular. Also, have experience in database technologies using Oracle SQL with an Oracle Database SQL Associate certification. Seeking for new opportunities and challenges to further enhance organizational worth by leveraging my skills and knowledge in Front-end development.

Work Experience

Accenture Sol. Pvt Ltd.

Jan 2021 – Current

Angular Developer

- Developed and maintained UI for the web application using HTML5, CSS3, JavaScript, Angular2+.
- Created multiple customizable dashboards with filters that allow users to monitor data in real-time.
- Used chart.js to create visually aesthetic graphs and charts to display consensus data results.
- Implemented Lazy-Loading to decrease the initial loading time for the application.
- Integrated RESTful services (API's) with JSON with SQL Queries for Oracle database.
- Optimized existing application that significantly improved web functionality and UI load time.
- Performed unit testing using Jasmine.

PL/SQL Developer

- Built complex queries using SQL and wrote stored procedures using PL/SQL.
- Involved in updating procedures, functions, triggers, and packages based on the change request.
- Engaged in 100+ hours of training in SQL, PL/SQL, Oracle Forms and Oracle Reports.

Freelance Web Developer

Sept 2020 – Dec 2020

- Designed and developed reusable components and templates with Angular and Firebase supporting multiple web application.
- Assisted in delivering 3+ applications while ensuring high performance on mobile and desktop platforms.
- Interacted with clients to achieve 100% client satisfaction.
- Involved in development of user interface using HTML5, CSS3 and Bootstrap.

Vkreate, Jaipur

May 2019 – July 2019
